

LOGITECH AND MICROSOFT TEAMS POWERED BY INTEL® MINI PC

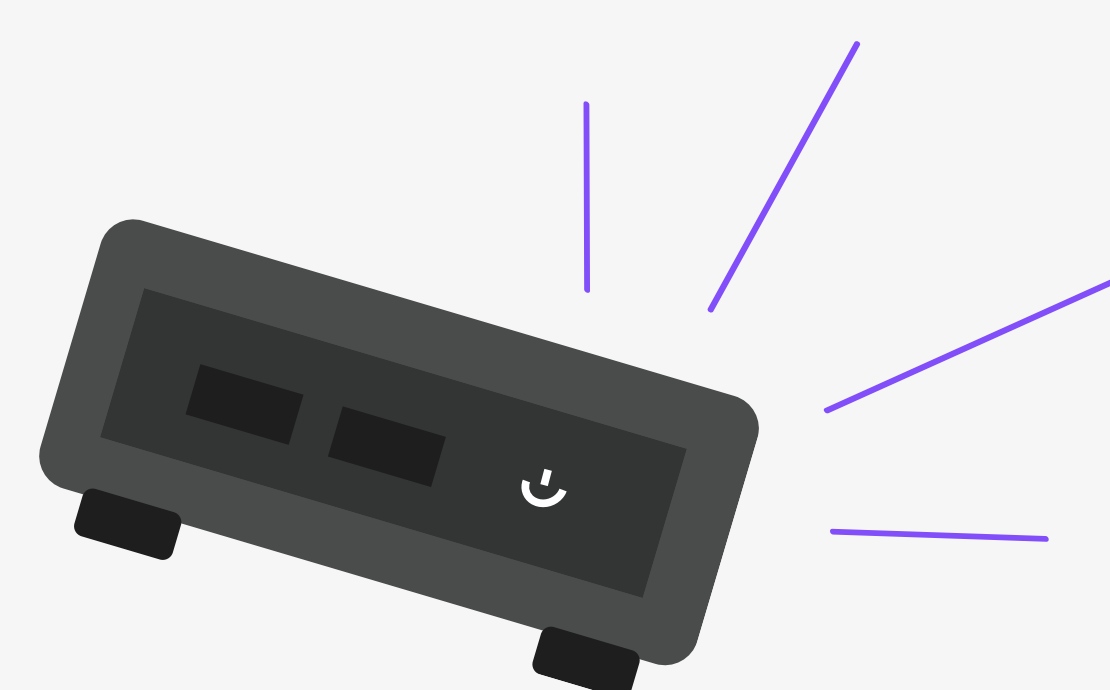

Video enabling meeting rooms is essential—doing it through a big, heavy PC isn't.

Small in form, big on features, the Intel® NUC Mini PC gives IT everything needed to power Logitech Room Solutions in rooms of all shapes and sizes.

Together with leading cloud-based video conferencing software applications, like Microsoft Teams®, your meeting room is powered up for seamless video meetings.

SMALL IS THE NEW BIG

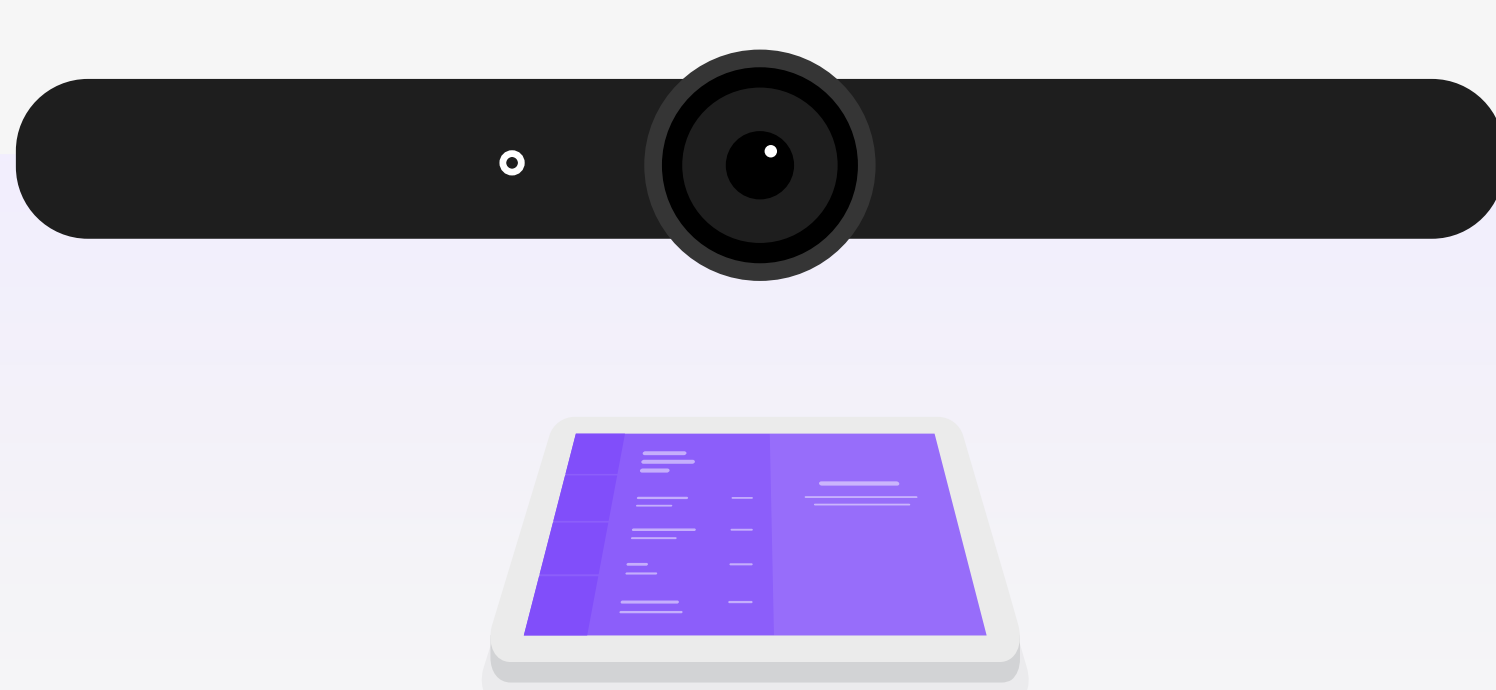

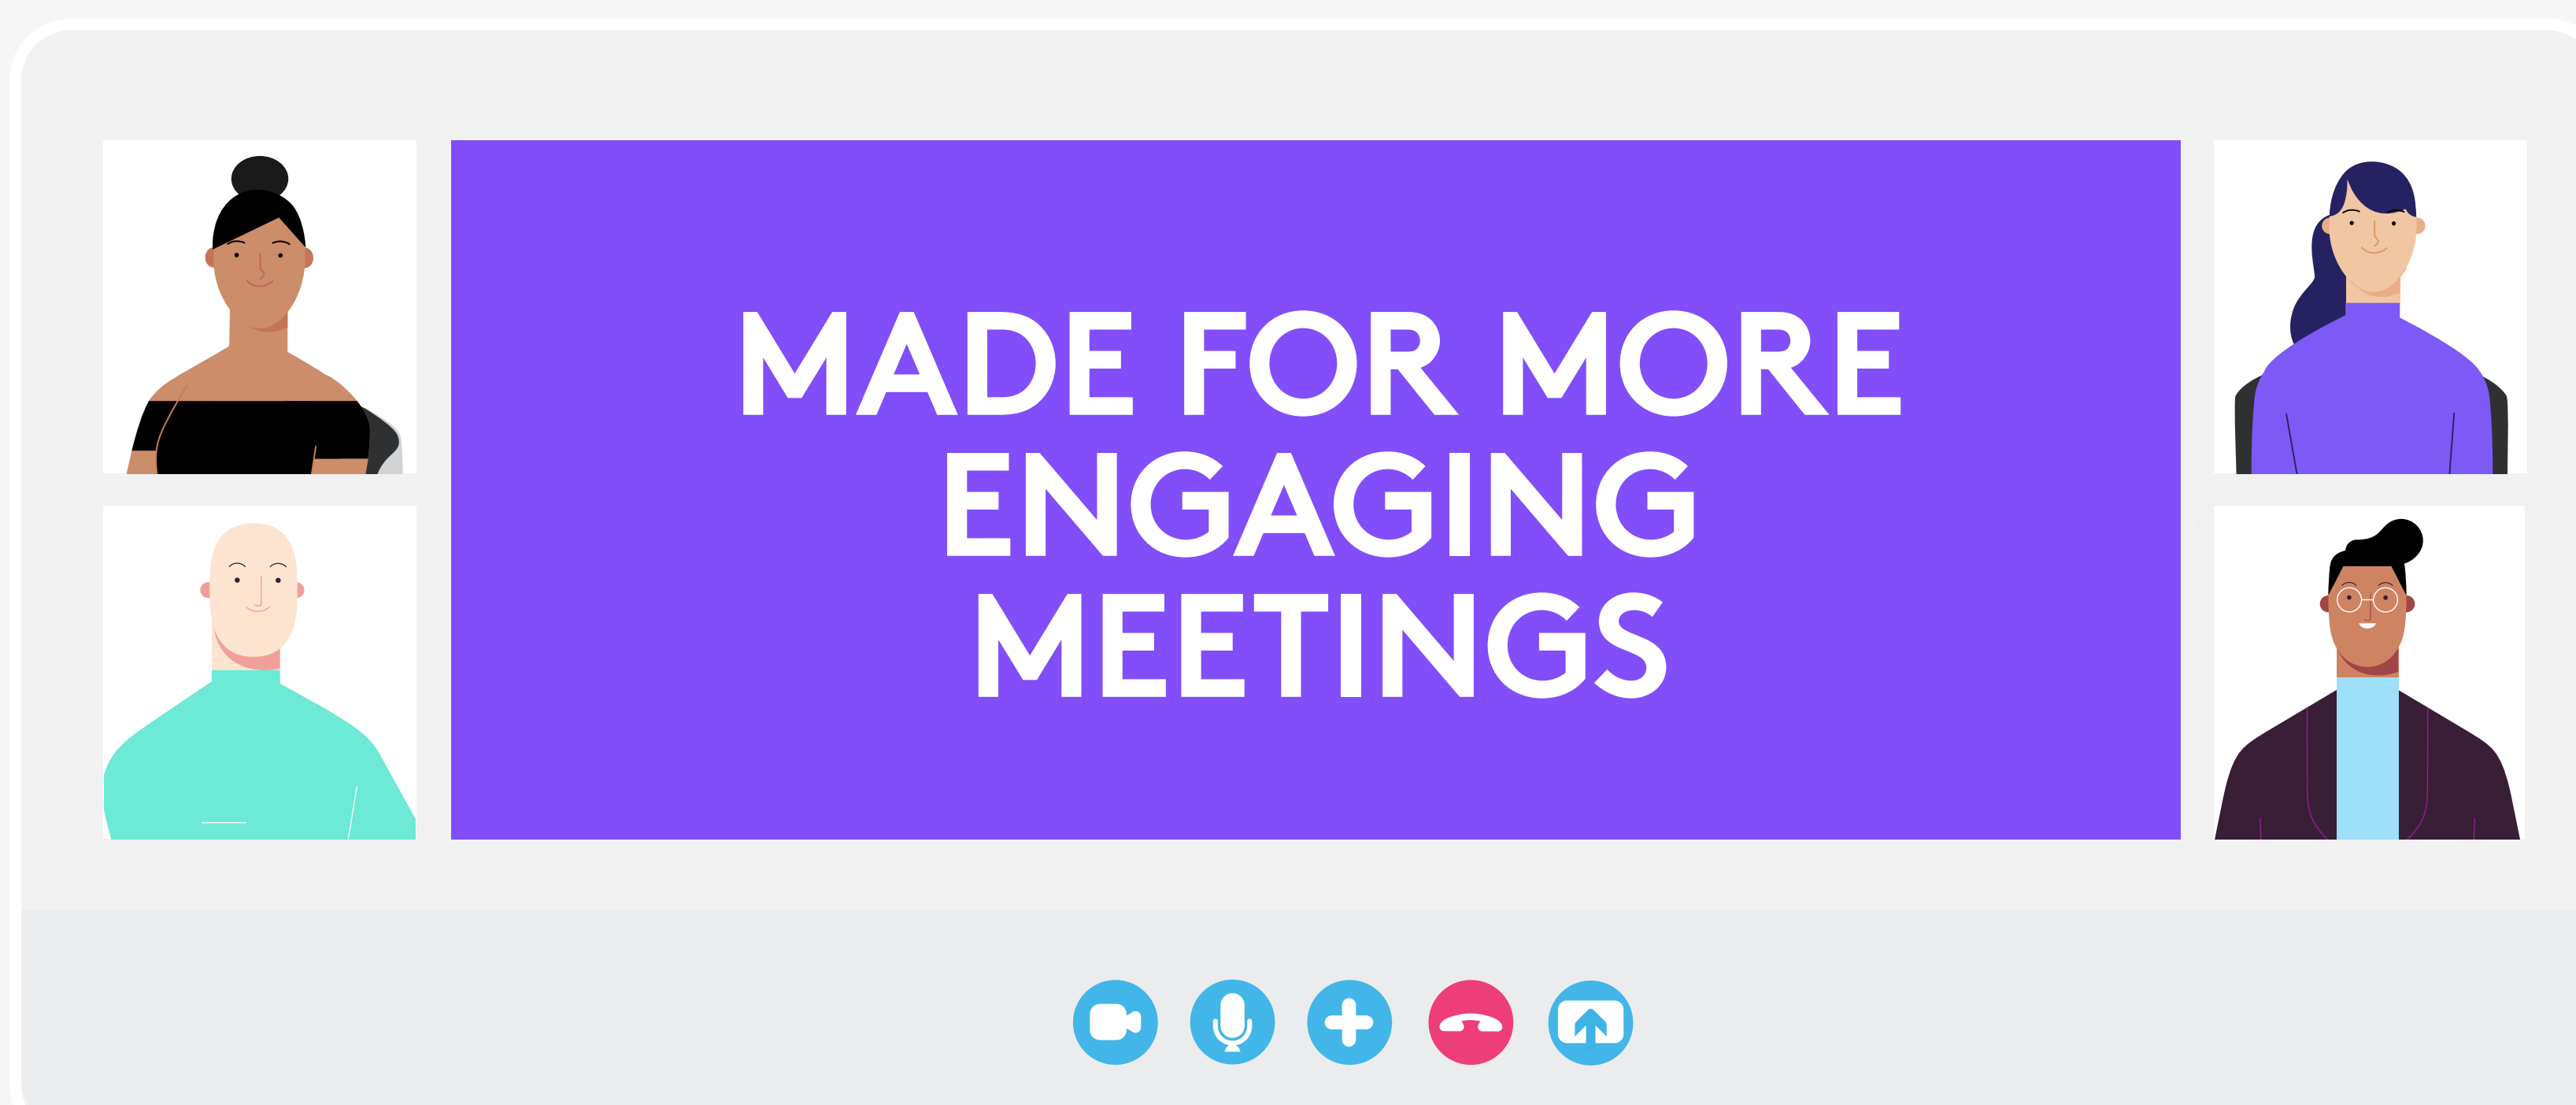

IT and end-users expect meeting rooms that are always on, instantly connected, and worry-free. Logitech Room Solutions powered by Intel® do it all with a small form factor that can be placed out of sight.

Powers Logitech Room Solutions to work seamlessly with Teams for faster meeting start-up times and a more collaborative experience

Ultra-small form factor, graphics capabilities, and low-acoustic footprint of the Intel® NUC enable your meetings to be focused on your business

Every day thousands of video meetings are powered by Intel® with Logitech Room Solutions and Microsoft Teams Rooms.

One touch to start meetings with Logitech Tap

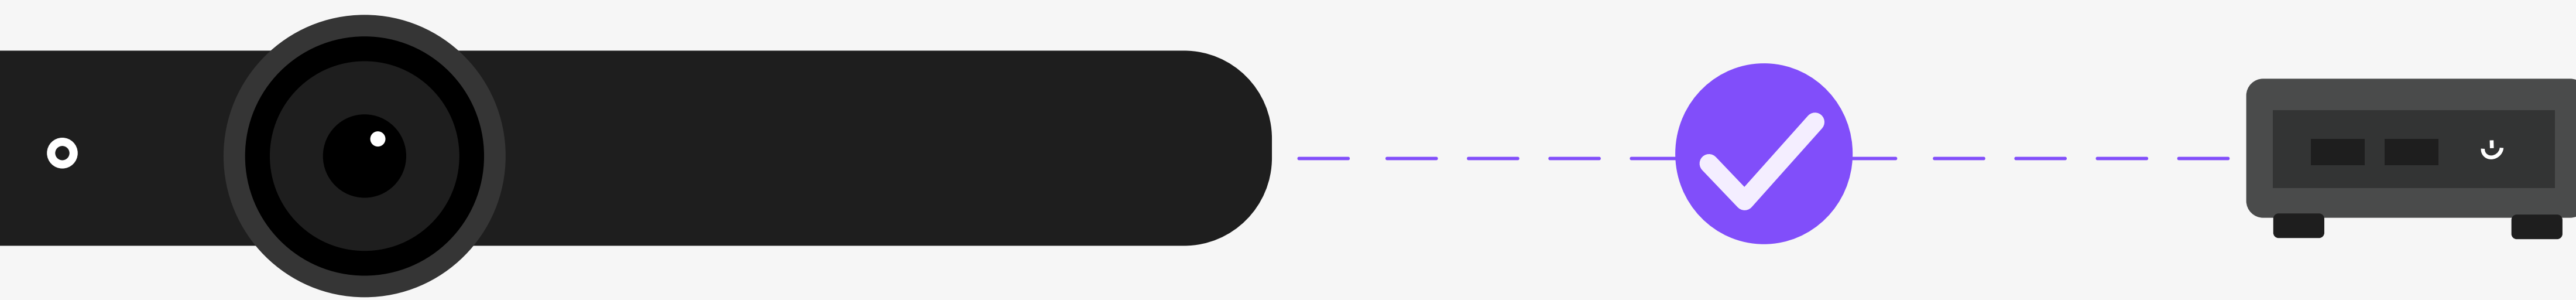

Wireless content sharing to streamline collaboration

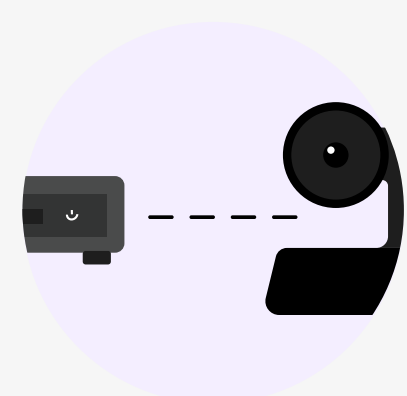

RightSense™ AI technologies to always look and sound your best

MEETING READY IN ALL ROOMS

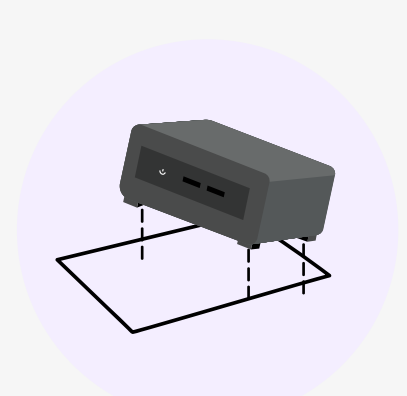

Setting up your meeting room solution is as simple as plug in, connect, and get to work.

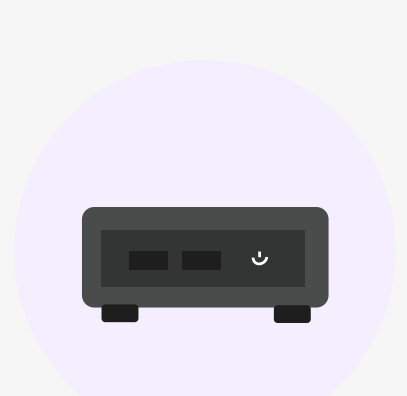

PAIRS EASILY

Intel® NUC pairs with cameras to create a complete video conferencing solution, power interactive displays for web conferences and screen sharing, and supply any meeting room all the functionality of a full-powered PC.

MOUNTS ANYWHERE

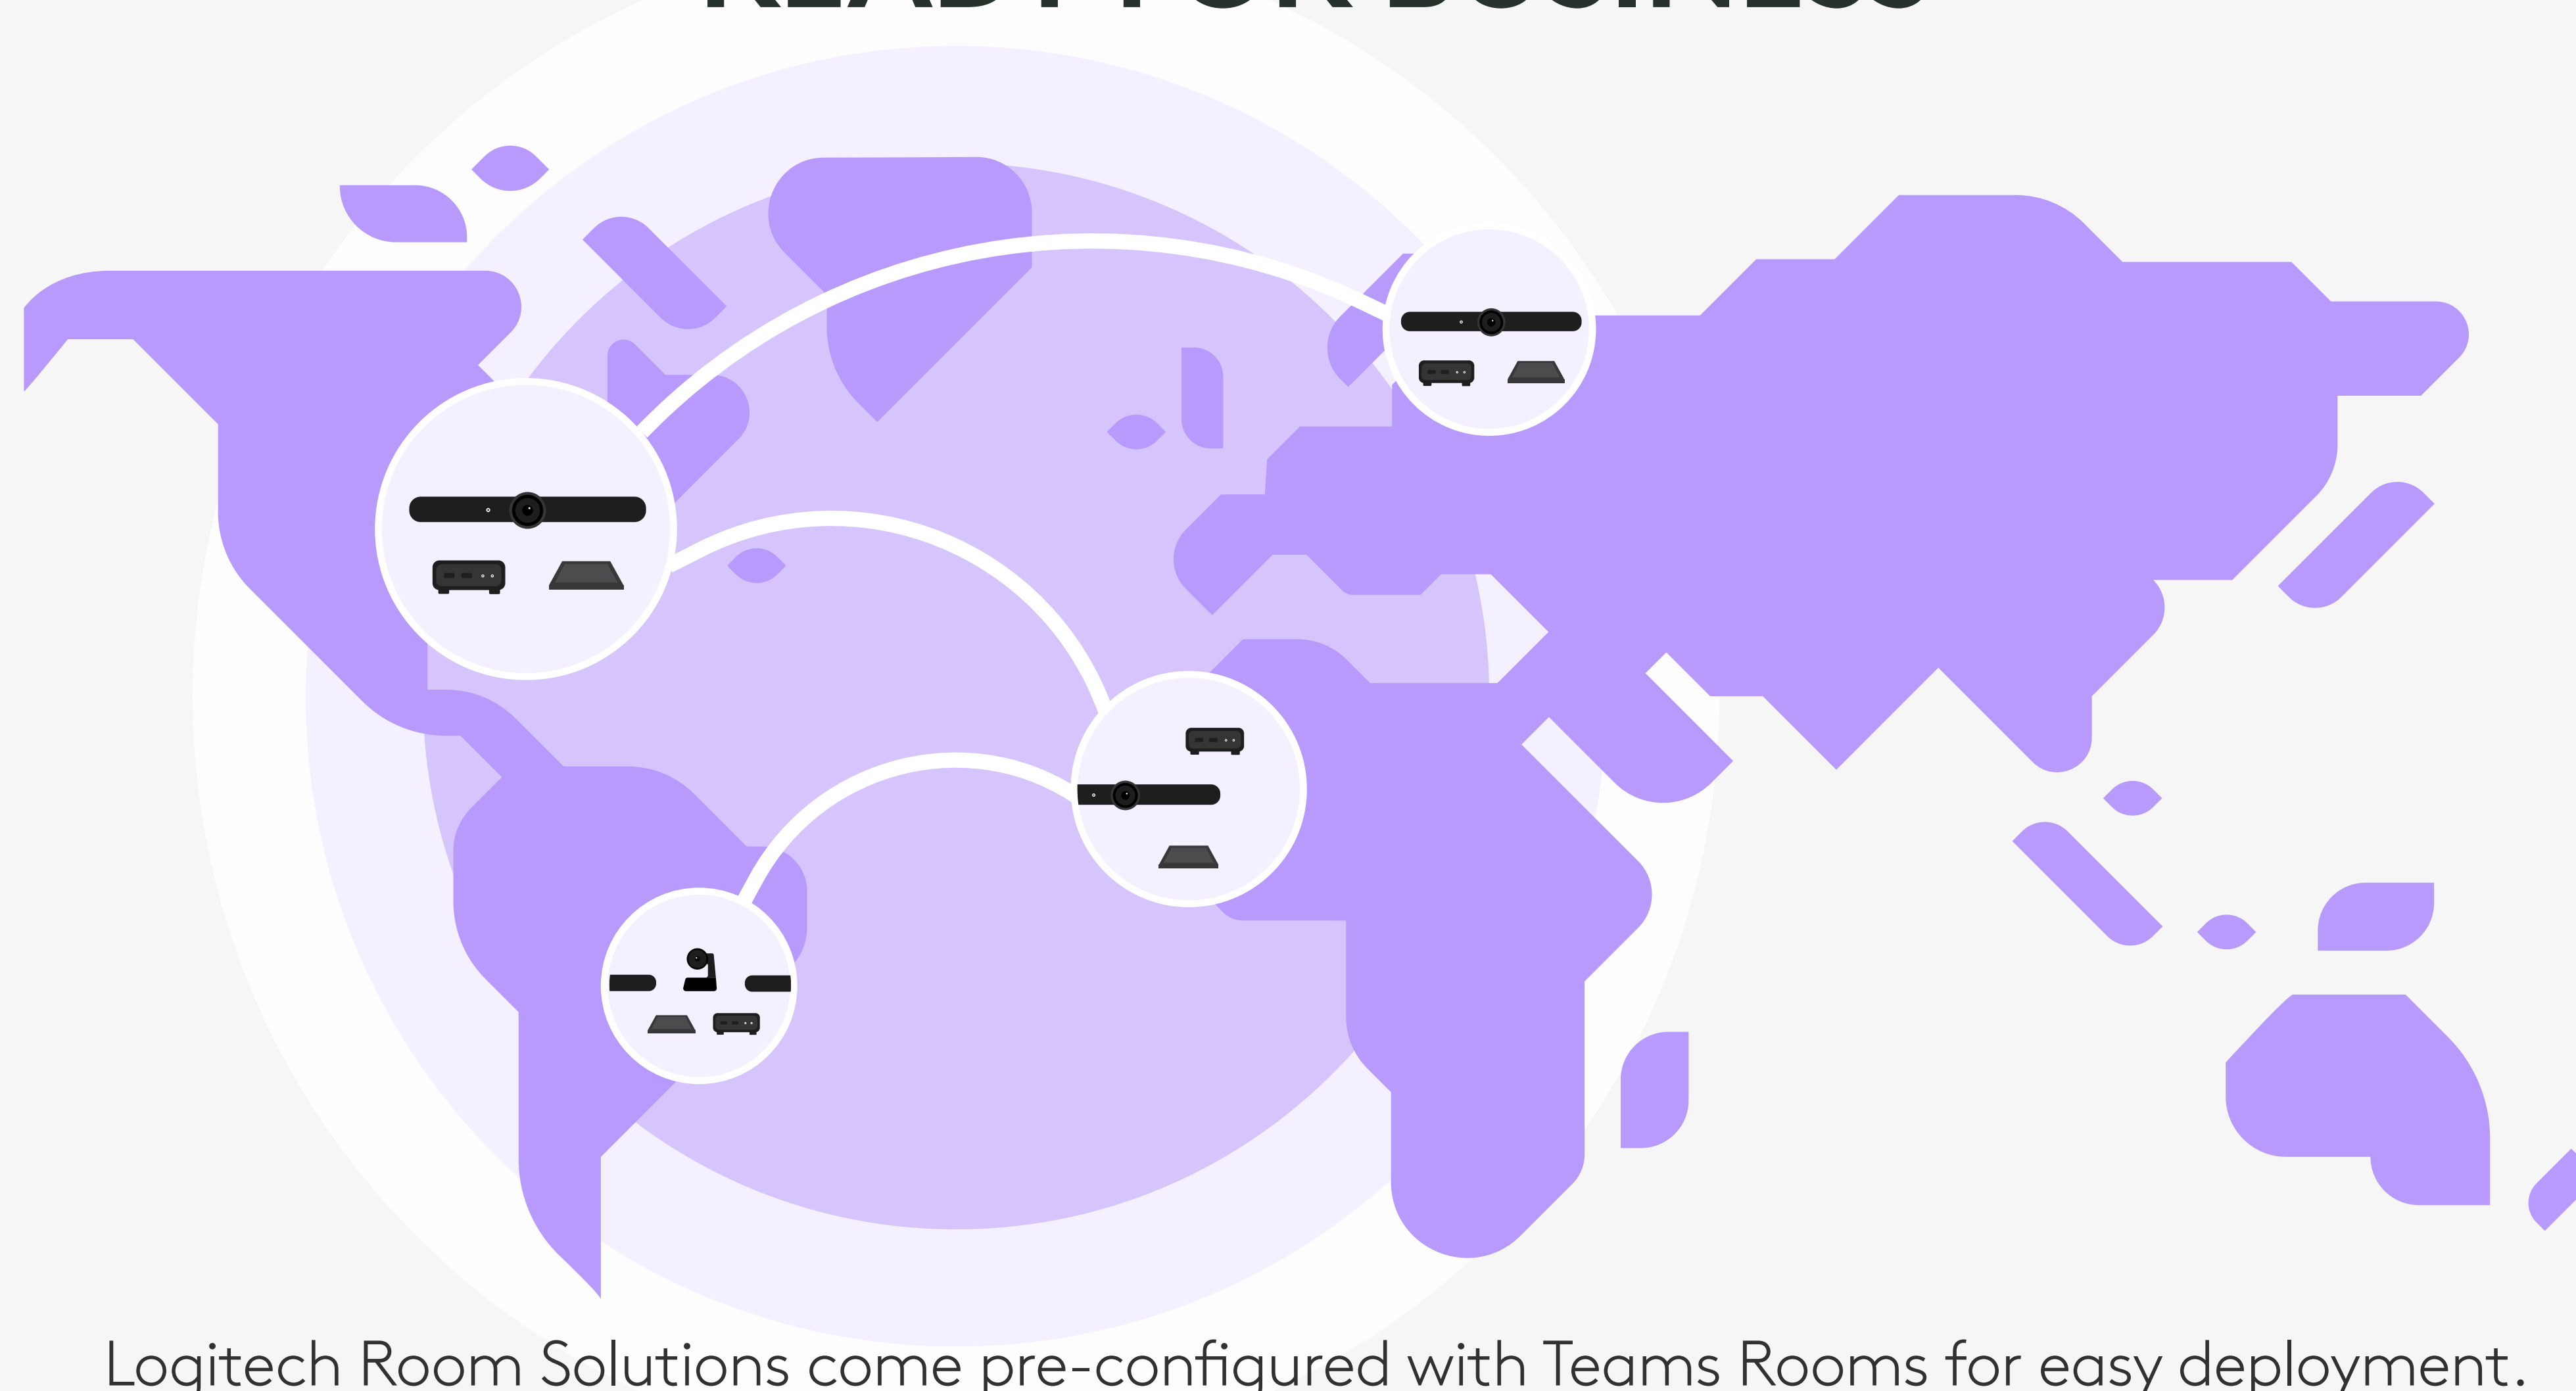

Intel® NUC mounts easily behind displays or on the ceiling which minimizes cord distance and signal loss.

TESTED TO PERFORM

Intel® NUC is tested to work seamlessly with Logitech Room Solutions.

SCALABLE AND READY FOR BUSINESS

Logitech Room Solutions come pre-configured with Teams Rooms for easy deployment.

Big on features, small in size, Intel® NUC with Logitech Room Solutions are perfect for growing your business.
